

Dear Friends and Families of the Rooftop Community,

As you know, our PTA supports a wide variety of wonderful programming for our students at Rooftop. We wanted to take a moment to share just one example of how the PTA supports our students.

Did you know that every child in sixth and eighth grade at Rooftop gets to participate in an enriching outdoor educational experience? That is, three opportunities for our children to apply their learning in the great outdoors.

Here is an excerpt from the Encarta®World English dictionary that may give you pause to think about what this means when we give students an “experience” in nature...

ex·pe·ri·ence n

4. direct personal awareness of or contact with a particular thing
5. the sum total of the things that have happened to an individual and of his or her past thoughts and feelings
6. knowledge acquired through the senses rather than through abstract reasoning

vt

1. to be exposed to, involved in, or affected by something
2. to feel a particular sensation or emotion

These unforgettable adventures are brought to you in part by the PTA. The PTA allots scholarship money so that this kind of “experience” can be offered to every child at Rooftop.

We are asking you to consider the value of this kind of knowledge and to make an additional donation to the PTA in this season of giving, to support this and all of the other amazing programming provided by the PTA. You can donate easily and securely online through this link:
rooftopk8.org/fundraising/donate/

Lastly, please feel free to forward this request to your extended family: The grandparents, the uncles, the aunties, the cousins...

Thank you for your support of PTA-sponsored programming here at Rooftop. We greatly appreciate it!

With thanks,

Ms Contreras, Mr Weis, Ms. Lathrop & Rooftop friends of
Outdoor Education
